"In My Mind's Eye" is the first book about family constellations in individual therapy and counselling. The procedures presented rest on a broad range of therapeutic knowledge and experience from various psychological methods and approaches. In the first section, Ursula Franke describes the foundations of her therapeutic work. The second part addresses the inner processes, questions, and decisions leading to interventions, that guide the therapist through the whole process of a constellation. The main focus is on the techniques of constellations in individual therapy, and on constellations in the imagination, which the author has developed over years of experience and observation.

*"The repertoire that Ursula Franke offers here is astounding, but always clear and easy to understand in the richness of examples.*

*It is a beautiful and useful book that has been long awaited. Congratulations!"*
